REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-44 recite a content addressable memory device and a method of operation within a content addressable memory device. The device comprises a first pair of match lines coupled to a first row of CAM cells, a second pair of match lines coupled to the second row of CAM cells; and a first logic circuit coupled to a first match line of the first pair and to a first match line of the second pair, the first logic circuit being configured to output a match signal in a first state if both the first match lines indicate a match condition, and to output the match signal in a second in a second state if either of the first match lines indicates a mismatch condition. The method comprises the steps of simultaneously performing first and second compare operations to generate first and second sets of match signals; and logically combining the first set of match signals with the second set of match signals to generate a set of resultant match signals.

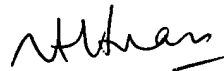

The prior art does not teach or suggest the above device and method having all the elements and steps as recited in claims 1-44. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
